After much deliberation, I have decided to end my preferred provider status with Aetna. This decision has come as a result of my desire to maintain a high level of care despite contractual requirements and limitations of this insurance company at this current time. It is my hope that Aetna and I will be able to renegotiate a new contractual agreement that is more beneficial to both parties.

Please accept this letter as a request to terminate my in-network participation with Aetna effective January 01, 2021.

Should you have any questions or need further information, please do not hesitate to contact my office.

Sincerely,

Roy D. Maynard, Jr., DDS
